

# **SAFETY DATA SHEET**

CONFORMS TO OSHA HAZARD COMMUNICATION STANDARD (HCS) 29 CFR 1910.1200

#### **SECTION 1. IDENTIFICATION**

| Product identifier:              | Compresyn <sup>®</sup> HD DSR ISO 100  |   |
|----------------------------------|--|---|
| Part number:                     | HDDSRL   |   |
| Identified uses:                 | Lubricant where there is no possibility of contact with food   |   |
| Uses advised against:            | Not for use where there is the possibility of contact with food. Other uses advised again SDS.   | inst may be specified elsewhere in this |
| <u>Supplier:</u>                 | JAX INC.<br>W134 N5373 Campbell Drive<br>Menomonee Falls, WI 53051 USA   |   |
| Email contact:                   | info@jax.com   |   |
| <u>Non-emergency</u><br>contact: | Phone: 262-781-8850 Fax: 262-781-3906  |   |
| Emergency telephone:             | -  |   |
|                                  | North America         1-800-535-5053         Australia         1-300-366-961         Ge           International         011-1-352-323-3500 (collect)         China         400-120-0761         Ge | rmany 0800-181-2926                     |

# SECTION 2. HAZARD(S) IDENTIFICATION

Classification: Label elements Plctograms:

Reproductive Tox. 2 (fertility)

|                                    | $\mathbf{v}$   |
|------------------------------------|--|
| Signal word:                       | Warning  |
| Hazard statements:                 | Suspected of damaging fertility or the unborn child.   |
| Precautionary<br>statements:       | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/ protective clothing/ eye protection/ face protection. If exposed or concerned: Get medical advice/ attention. Store locked up. Dispose of contents/ container in accordance with local/ regional/ national/ international regulations. |
| Hazards not otherwi<br>classified: | se Harmful to aquatic life with long lasting effects.  |

Additional information: Not applicable.

| SECTION 3. COMPOSITION | / INFORMATION ON INGREDIENTS |          |              |                   |
|------------------------|------------------------------|----------|--------------|-------------------|
| Composition:           | Chemical name                | <u>%</u> | <u>CAS #</u> | <u>Impurities</u> |
|                        | tris(methylphenyl) phosphate | <1       | 1330-78-5    | None              |

#### **SECTION 4. FIRST-AID MEASURES**

| First aid measures  |  |
|---|--|
| Eye contact:  | Remove contact lenses, if wearing, and flush eyes with water for at least 15 minutes or until irritation subsides. If irritation persists, consult a physican.   |
| Skin contact:   | Remove clothing and shoes, if contaminated. Wash skin with soap and water. Wash or clean contaminated clothing before reuse and discard oil-soaked shoes. If irritation persists, consult a physician.   |
| Ingestion:  | If swallowed, DO NOT induce vomiting. As a precaution, give the person a glass of water to drink and seek medical attention.<br>Never give anything by mouth to an unconscious person. Consult a physician.  |
| Inhalation:   | If inhaled, move to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. In case of bluish discoloration (lips, ear lobes, fingernails), give oxygen as quickly as possible. If symptoms persist, call a physician. |
| Most important<br>symptoms and effects,<br>both acute and delayed:                      | Suspected of damaging fertility or the unborn child.   |
| Indication of any<br>immediate medical<br>attention and special<br>treatment available: | No further relevant information available.   |
| General information:  | No further relevant information available.   |

#### **SECTION 5. FIRE-FIGHTING MEASURES**

| Suitable extinguishing<br>media:          | Extinguishing media include dry chemical, alcohol foam, and carbon dioxide. Do not use direct stream of water. Water may be used to keep fire-exposed containers cool. |
|---|--|
| <u>Unsuitable</u><br>extinguishing media: | Do not use direct stream of water.   |
| Specific hazards:                         | Pressure build-up due to heat exposure may cause containers to rupture. Use water spray to keep containers cool.   |
| Advice for firefighters:                  | Firefighters should wear full protective gear, including helmet. Use supplied-air breathing equipment for enclosed or confined space or as otherwise needed.           |

## SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions,<br>protective equipment<br>and emergency<br>procedures: | In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Keep away from ignition sources. Wear protective equipment. Keep unprotected persons away.   |
|---|--|
| Environmental<br>precautions:   | Prevent entry into sewers, waterways or confined areas by diking or impounding. Dike far ahead of spill for later recovery and disposal. Advise authorities if the product has entered or may enter sewers, watercourses, or extensive land areas.   |
| <u>Methods for</u><br><u>containment and</u><br><u>cleaning up</u>            | <ul> <li>Land spill: Stop leak if you can do so without risk. Recover free product using non-sparking tools. Add sand, earth, or other suitable absorbent material to the spill area. Recover by pumping or with suitable absorbents. Dispose of in accordance with national and/or local regulations relating to waste disposal.</li> <li>Water spill: Stop leak if you can do so without risk. Confine the spill immediately with booms. Remove from the surface by skimming or with suitable absorbents.</li> </ul> |

## SECTION 7. HANDLING AND STORAGE

| Precautions for safe   | Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace. Handle in accordance with            |
|------------------------|--|
| handling:              | good industrial hygiene and safety practice. Keep container closed when not in use. Do not use pressure to empty drums.            |
|                        | Ensure all equipment is electrically grounded before beginning transfer operations.  |
| Conditions for safe    | Store in a cool, dry place in tightly sealed containers. Store out of direct sunlight. Do not store near heat, sparks, open flame, |
| storage, including any | pilot lights, static electricity, or other sources of ignition. Do not store where temperature may exceed 49°C (120°F). Store      |
| incompatibilities:     | away from oxidizing agents. Rotate stock.  |

## SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| Workplace exposure     | Chemical name  | Exposure limit and source   |
|------------------------|--|---|
| <u>limits:</u>         | tris(methylphenyl) phosphate   | Not available   |
| Exposure controls      |  |   |
| Engineering controls:  | Provide exhaust ventilation or other engineering control occupational exposure limits.                             | s to keep the airborne concentration of vapors below their respective   |
| Ventilation:           | Use in a well-ventilated area. See Engineering Controls.   |   |
| Personal hygiene:      | Wash skin thoroughly after contact, before breaks and n<br>from skin by waterless hand cleaners followed by washin | neals and at the end of the work period. Product is readily removed ng thoroughly with soap and water.  |
| Eye protection:        | Chemical splash goggles or face shield in compliance wit   | h OSHA regulations are advised when eye contact may occur.  |
| Hand protection:       | Wear neoprene gloves.  |   |
| Respiratory protection |  | quipment is not normally required where there is adequate natural or<br>insufficient ventilation, wear suitable respiratory equipment. A<br>d in absence of proper environmental control. |

#### **SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

| Appearance / odor:        | Clear lube oil with little or no odor | Upper flammability limit: | Not available           |
|---------------------------|---------------------------------------|---------------------------|-------------------------|
|                           |                                       | Lower flammability limit: | Not available           |
| Physical state:           | Liquid                                | Vapor pressure:           | Nil                     |
| Odor threshold:           | Not available                         | Vapor density:            |                         |
| pH:                       | Not available                         |                           | Not available           |
| Melting / freezing point: | Not available                         | Relative density:         | 0.96 (typical) @ 15.6°C |
| Initial boiling point     | Not available                         |                           |                         |
| and boiling range:        |                                       | Solubility in water:      | Slightly soluble        |

| Compresyn <sup>®</sup> HD DSR ISO 100   |  |   |              | Page 3 of 4<br>Revision Date<br>Supersedes Date | 8/24/2015<br>7/30/2015 |
|---|--|---|--------------|---|------------------------|
| Flash point:                            | 503°F (262°C), ASTM D 92   | Partition coefficient<br>(n-octanol/water): | Not availa   | able  |                        |
| Evaporation rate:                       | Nil  | Autoignition temperature:                   | Not availa   | able  |                        |
|   |  | Decomposition temperature:                  | Not avail    | able  |                        |
| <u>Flammability (solid, gas)</u> :      | Not applicable   | <u>Viscosity:</u>                           | Not availa   | able  |                        |
| SECTION 10. STABILITY A                 | AND REACTIVITY   |   |              |   |                        |
| Reactivity:                             | Not reactive under normal conditions.  |   |              |   |                        |
| Chemical stability:                     | Stable under recommended conditions.   |   |              |   |                        |
| Possibility of<br>hazardous reactions:  | Hazardous reactions are not expected to occur.   |   |              |   |                        |
| Conditions and<br>materials to avoid:   | Avoid heat, sparks, open flames, oxidizing materials   | , strong acids and strong bases             |              |   |                        |
| Hazardous<br>decomposition<br>products: | Carbon monoxide (CO), carbon dioxide (CO2), oxide  | s of nitrogen (NOx), oxides of p            | hosphoru     | s, and dense black sn                           | noke.                  |
| SECTION 11. TOXICOLOG                   | GICAL INFORMATION  |   |              |   |                        |
| Information on likely ro                | utes of exposure   |   |              |   |                        |
| Eye contact:                            | No known significant effects or critical hazards.  |   |              |   |                        |
| Skin contact:                           | Suspected of damaging fertility or the unborn child.   |   |              |   |                        |
| Inhalation:                             | Suspected of damaging fertility or the unborn child.   |   |              |   |                        |
| Ingestion:                              | Suspected of damaging fertility or the unborn child.   |   |              |   |                        |
| Component                               | Components   |   | <u>LC</u> 50 |   |                        |
| information:                            | tris(methylphenyl) phosphate   | 15750 mg/kg (oral, rat)                     | _            | available                                       |                        |
| Information on physical                 | , chemical and toxicological effects   |   |              |   |                        |
| Symptoms:                               | Please see Section 4 of this SDS for symptoms.   |   |              |   |                        |
| Deleved and immediate                   |  |   |              |   |                        |
|   | effects, and chronic effects, from short and long-ter  | <u>ms exposure</u>                          |              |   |                        |
| Effects:                                | Suspected of damaging fertility or the unborn child.   |   |              |   |                        |
| Carcinogenicity:                        | No component of this product present at levels great carcinogen by NTP.                                      | ater than or equal to 0.1% is ide           | entified as  | a known or anticipat                            | ed                     |
| Numerical measures of<br>toxicity:      | Not determined   |   |              |   |                        |
| SECTION 12. ECOLOGICA                   | LINFORMATION   |   |              |   |                        |
| Ecotoxicity:                            | Harmful to aquatic life with long lasting effects.   |   |              |   |                        |
| Component                               | <u>Components</u>  | <u>L(Е)С<sub>50</sub></u>                   |              |   |                        |
| information:                            | tris(methylphenyl) phosphate   | 0.146 mg/l/48h (Daphnia                     | magna)       |   |                        |
| Persistence and<br>degradability:       | Not determined   |   |              |   |                        |
| Bioaccumulative<br>potential:           | Not determined   |   |              |   |                        |
| Mobility in soil:                       | Not available  |   |              |   |                        |
| Other adverse effects:                  | Not determined   |   |              |   |                        |
| ECTION 13. DISPOSAL O                   | CONSIDERATIONS   |   |              |   |                        |
| Waste treatment<br>methods:             | Disposal must be in accordance with current applica<br>Consult national or regional authorities for proper d |   |              | aracteristics at time                           | of disposal.           |
|   |  |   |              |   |                        |

## SECTION 14. TRANSPORTATION INFORMATION

Dangerous goods descriptions may not reflect package size, quantity, end-use or region-specific exceptions that can be applied to shipments. Consult shipping documents for material-specific descriptions.
