

SAFETY DATA SHEET

CONFORMS TO OSHA HAZARD COMMUNICATION STANDARD (HCS) 29 CFR 1910.1200

SI

SECTION 1. IDENTIFICATI	ION				
Product identifier:	Compresyn [®] HD GTP ISO 68				
Part number:	HDGTPK				
Identified uses:	Industrial lubricant				
Uses advised against:	Any use not specified above, or any use specified against elsewhere in this SDS.				
Supplier:	JAX INC. W134 N5373 Campbell Drive Menomonee Falls, WI 53051 USA				
<u>Email contact</u> : <u>Non-emergency</u>	info@jax.com Phone: 262-781-8850				
contact:	Filone. 202-781-8850 Tax. 202-781-5500				
Emergency telephone:	INFOTRAC: North America 1-800-535-5053 International 011-1-352-323-3500 (collect)	Australia 1-300-366-961 China 400-120-0761	Ge	rmany 0800-181	-2926
SECTION 2. HAZARD(S) II	DENTIFICATION				
<u>Classification</u> :	While this material is not considered hazardous contains valuable information critical to the safe available for employees and other users of this	handling and proper use of t			
Label elements Pictograms:	Not applicable				
Signal word:	Not applicable				
Hazard statements:	Not applicable				
Precautionary statements:	Not applicable				
Hazards not otherwise classified:	Not applicable.				
Additional information	: Not applicable				
SECTION 3. COMPOSITION	/ INFORMATION ON INGREDIENTS				
Composition:	<u>Chemical name</u> Polyalphaolefin		<u>%</u> 10-20	<u>CAS #</u> 68037-01-4	<u>Impurities</u> None
SECTION 4. FIRST-AID MI	EASURES				
First aid measures					
Eye contact:	Remove contact lenses, if wearing, and flush eye persists, consult a physican.	es with water for at least 15 n	ninutes o	r until irritation s	subsides. If irritation
Skin contact:	Remove clothing and shoes, if contaminated. W reuse and discard oil-soaked shoes. If irritation		. Wash or	clean contamina	ated clothing before
Ingestion:	If swallowed, DO NOT induce vomiting. As a pre Never give anything by mouth to an unconsciou			ter to drink and s	eek medical attention.
Inhalation:	Remove to fresh air. If breathing is difficult, give immediately.	oxygen. If not breathing, give	e artificia	l respiration. Get	medical attention
<u>Most important</u> symptoms and effects, both acute and delayed:	No further relevant information available.				
Indication of any immediate medical attention and special treatment available:	No further relevant information available.				

General information:

No further relevant information available.

SECTION 5. FIRE-FIGHTING MEASURES

<u>Suitable extinguishing</u> <u>media</u> :	Extinguishing media include dry chemical, alcohol foam, and carbon dioxide. Do not use direct stream of water. Water may be used to keep fire-exposed containers cool.
<u>Unsuitable</u> extinguishing media:	Do not use direct stream of water.
Specific hazards:	Pressure build-up due to heat exposure may cause containers to rupture. Use water spray to keep containers cool.
Advice for firefighters:	Firefighters should wear full protective gear, including helmet. Use supplied-air breathing equipment for enclosed or confined space or as otherwise needed.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:	In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Keep away from ignition sources. Wear protective equipment. Keep unprotected persons away.
Environmental precautions:	Prevent entry into sewers, waterways or confined areas by diking or impounding. Dike far ahead of spill for later recovery and disposal. Advise authorities if the product has entered or may enter sewers, watercourses, or extensive land areas.
<u>Methods for</u> <u>containment and</u> <u>cleaning up</u>	 Land spill: Stop leak if you can do so without risk. Recover free product using non-sparking tools. Add sand, earth, or other suitable absorbent material to the spill area. Recover by pumping or with suitable absorbents. Dispose of in accordance with national and/or local regulations relating to waste disposal. Water spill: Stop leak if you can do so without risk. Confine the spill immediately with booms. Remove from the surface by skimming or with suitable absorbents. Seek the advice of a specialist before using dispersants.

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling:	Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace.
Conditions for safe storage, including any incompatibilities:	Store in a cool, dry place in tightly sealed containers. Store out of direct sunlight. Do not store near heat, sparks, open flame, pilot lights, static electricity, or other sources of ignition. Do not store where temperature may exceed 49°C (120°F). Store away from oxidizing agents. Rotate stock.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Workplace exposure	Chemical name	Exposure limit and source
<u>limits:</u>	Polyalphaolefin	5 mg/m³ (mist), OSHA
Exposure controls		
Engineering controls:	Provide exhaust ventilation or other engineering controls occupational exposure limits.	to keep the airborne concentration of vapors below their respective
Ventilation:	Use in a well-ventilated area. See Engineering Controls.	
Personal hygiene:	Wash skin thoroughly after contact, before breaks and m from skin by waterless hand cleaners followed by washing	eals and at the end of the work period. Product is readily removed g thoroughly with soap and water.
Eye protection:	Chemical splash goggles or face shield in compliance with	OSHA regulations are advised when eye contact may occur.
Hand protection:	Any lined non-permeable rubber gloves.	
Respiratory protection:		uipment is not normally required where there is adequate natural or sufficient ventilation, wear suitable respiratory equipment. A in absence of proper environmental control.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance / odor:	Amber viscous liquid with little or no odor	Upper flammability limit:	Not available
		Lower flammability limit:	Not available
Physical state:	Liquid	Vapor pressure:	Not available
Odor threshold:	Not available	Vapor density:	
<u>рН:</u>	Not available		Not available
Melting / freezing poin	<u>t:</u> Not available	Relative density:	0.89 (typical)
Initial boiling point	Not available		
and boiling range:		Solubility in water:	Not available

				Page 3 of 4 Revision Date Supersedes Date	9/24/2015 9/23/2015
Flash point:	478°F (248°C), ASTM D 92	Partition coefficient (n-octanol/water):	Not availa	able	
Evaporation rate:	Not available	Autoignition temperature:	Not availa	able	
		Decomposition temperature:	Not availa	able	
<u>Flammability (solid, gas)</u> :	Not applicable	<u>Viscosity</u> :	Not availa	able	
SECTION 10. STABILITY A	ND REACTIVITY				
Reactivity:	Not reactive under normal conditions.				
Chemical stability:	Stable under recommended conditions.				
<u>Possibility of</u> hazardous reactions:	Hazardous reactions are not expected to occur.				
<u>Conditions and</u> materials to avoid:	Keep away from heat, sparks, open flames and othe strong alkalis and strong acids.	er sources of ignition. Keep out	of direct s	unlight. Avoid strong	oxidizers,
Hazardous decomposition products:	Carbon monoxide, carbon dioxide, smoke and irrita	ting vapors as products of incor	nplete cor	nbustion.	
SECTION 11. TOXICOLOG	ICAL INFORMATION				
Information on likely rou	ites of exposure				
Eye contact:	No known significant effects or critical hazards.				
Skin contact:	No known significant effects or critical hazards.				
Inhalation:	No known significant effects or critical hazards.				
Ingestion:	No known significant effects or critical hazards.				
Component information:	Components	<u>LD₅₀</u>	LC ₅₀
