

# SAFETY DATA SHEET

CONFORMS TO OSHA HAZARD COMMUNICATION STANDARD (HCS) 29 CFR 1910.1200

# SECTION 1. IDENTIFICATION

SECTION 1. IDENTIFICATION						
Product identifier:	JAX H-P Industrial Gear Oil ISO 68; JAX H-P Industrial Gear Oil ISO 100; JAX H-P Industrial Gear Oil ISO 150; JAX H-P Industrial Gear Oil ISO 220; JAX H-P Industrial Gear Oil ISO 320; JAX H-P Industrial Gear Oil ISO 460; JAX H-P Industrial Gear Oil ISO 680					
Part number:	13068; 13100; 13150; 13220; 13320 ;13460; 13680					
Identified uses:	Lubricant where there is no	o possibility of contac	ct with food			
<u>Uses advised against:</u>	Not for use where there is the possibility of contact with food. Other uses advised against may be specified elsewhere in this SDS.				d elsewhere in this	
<u>Supplier:</u>	JAX INC W134 N5373 Campbell Dr Menomonee Falls, WI 530					
Email contact:	info@jax.com					
<u>Non-emergency</u> <u>contact:</u>	Phone: 262-781-8850	Fax: 262-781-3906	5			
Emergency telephone:	INFOTRAC: North America 1-800-535- International 011-1-352-3		Australia 1-300-366-961 China 400-120-0761	Germ	<b>any</b> 0800-181-29	26
SECTION 2. HAZARD(S)	DENTIFICATION					
<u>Classification:</u>		tion critical to the safe	by the OSHA Hazard Commu e handling and proper use of product.		•	•
Label elements						
Pictograms:	Not applicable					
Signal word:	Not applicable					
Hazard statements:	Not applicable					
Precautionary statements:	Not applicable					
Hazards not otherwise classified:	Not applicable					
Additional information	: Not applicable					
SECTION 3. COMPOSITION / INFORMATION ON INGREDIENTS						
Composition:	Chemical name			<u>%</u>	<u>CAS #</u>	<b>Impurities</b>
	White mineral oil (petroleu	um)		0-99	8042-47-5	None
SECTION 4. FIRST-AID M	EASURES					
First aid measures						
Eye contact:	Remove contact lenses, if y persists, consult a physicar	•	es with water for at least 15 r	ninutes or u	ntil irritation sub	sides. If irritation
Skin contact:	Remove clothing and shoe	s, if contaminated. W	ash skin with soap and water	. Wash or cl	ean contaminate	d clothing before

reuse and discard oil-soaked shoes. If irritation persists, consult a physician. If swallowed, DO NOT induce vomiting. As a precaution, give the person a glass of water to drink and seek medical attention. Ingestion: Never give anything by mouth to an unconscious person. Consult a physician.

- Inhalation: Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention immediately.
- No further relevant information available. Most important

#### symptoms and effects, both acute and delayed:

Indication of any No further relevant information available.

### immediate medical attention and special treatment available:

**<u>General information:</u>** No further relevant information available.

## SECTION 5. FIRE-FIGHTING MEASURES

<u>Suitable extinguishing</u> <u>media:</u>	Extinguishing media include dry chemical, alcohol foam, and carbon dioxide. Do not use direct stream of water. Water may be used to keep fire-exposed containers cool.
<u>Unsuitable</u> extinguishing media:	Do not use direct stream of water.
Specific hazards:	Pressure build-up due to heat exposure may cause containers to rupture. Use water spray to keep containers cool.
Advice for firefighters:	Firefighters should wear full protective gear, including helmet. Use supplied-air breathing equipment for enclosed or confined space or as otherwise needed.

#### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures:	In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Keep away from ignition sources. Wear protective equipment. Keep unprotected persons away.
Environmental precautions:	Prevent entry into sewers, waterways or confined areas by diking or impounding. Dike far ahead of spill for later recovery and disposal. Advise authorities if the product has entered or may enter sewers, watercourses, or extensive land areas.
<u>Methods for</u> <u>containment and</u> <u>cleaning up</u>	<ul> <li>Land spill: Stop leak if you can do so without risk. Recover free product using non-sparking tools. Add sand, earth, or other suitable absorbent material to the spill area. Recover by pumping or with suitable absorbents. Dispose of in accordance with national and/or local regulations relating to waste disposal.</li> <li>Water spill: Stop leak if you can do so without risk. Confine the spill immediately with booms. Remove from the surface by skimming or with suitable absorbents. Seek the advice of a specialist before using dispersants.</li> </ul>
SECTION 7. HANDLING AND	) STORAGE
Precautions for safe handling:	Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace.
<u>Conditions for safe</u> <u>storage, including any</u> incompatibilities:	Store in a cool, dry place in tightly sealed containers. Store out of direct sunlight. Do not store near heat, sparks, open flame, pilot lights, static electricity, or other sources of ignition. Do not store where temperature may exceed 49°C (120°F). Store away from oxidizing agents. Rotate stock.

## SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Liquid

Not available

**Physical state:** 

**Odor threshold:** 

<u>рН:</u>

	,		
Workplace exposure	Chemical name	Exposure limit and source	
limits:	White mineral oil (petroleum)	5 mg/m³ (oil mist), TWA, ACGIH	
Exposure controls			
Engineering controls:	Provide exhaust ventilation or other engineering controls to keep the airborne concentration of vapors below their respective occupational exposure limits.		
Ventilation:	Use in a well-ventilated area. See Engineering Controls.		
Personal hygiene:	Wash skin thoroughly after contact, before breaks and meals and at the end of the work period. Product is readily removed from skin by waterless hand cleaners followed by washing thoroughly with soap and water.		
Eye protection:	Chemical splash goggles or face shield in compliance with OSHA regulations are advised when eye contact may occur.		
Hand protection:	Any lined non-permeable rubber gloves.		
Respiratory protection: Use with adequate ventilation. Respiratory protective equipment is not normally required where there is adequate natural or local exhaust ventilation to control exposure. In case of insufficient ventilation, wear suitable respiratory equipment. A NIOSH/MSHA-approved air-supplied respirator is advised in absence of proper environmental control.			
SECTION 9. PHYSICAL AN	ND CHEMICAL PROPERTIES		
Appearance / odor:	Amber colored lube oil with slight sulfur odor	er flammability limit: Not available	

Lower flammability limit:

Vapor pressure:

Vapor density:

# SECTION 13. DISPOSAL CONSIDERATIONS

Waste treatmentDisposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.methods:Consult national or regional authorities for proper disposal and reporting procedures.

#### **SECTION 14. TRANSPORTATION INFORMATION**

Dangerous goods descriptions may not reflect package size, quantity, end-use or region-specific exceptions that can be applied to shipments. Consult shipping documents for material-specific descriptions.

	Proper Shipping Name:	UN Number:	Hazard <u>Class:</u>	Packing <u>Group:</u>	Remarks:
<u>U.S. D.O.T.</u>	Not regulated	None	None	None	None
ADR/RID	Not regulated	None	None	None	None

#### SECTION 15. REGULATORY INFORMATION

```
U.S. Federal Regulations
```

SARA Section 302 Extremely Hazardous Substances:	This product contains greater than 1.0% of the following chemical(s) on the SARA Extremely Hazardous Substances List: None
SARA Section 304 CERCLA Hazardous Substances:	Release of the following chemical(s) at quantities equal to or greater than the reportable quantities (RQ), is subject to reporting to the National Response Center under CERCLA: None
SARA Section 313 Toxic Chemicals:	This product contains the following chemical(s) listed in Section 313 at or above the de minimis concentrations: None
TSCA Inventory:	All components are either listed or exempted from listing on the TSCA Inventory.
U.S. State Regulations	
California Proposition 65 Status:	This product does not contain chemical(s) known to the State of California to cause cancer, birth defects, or other reproductive harm.
California Proposition 65 Listed Components:	Not applicable
International Regulation	S
Canada:	This product has been classified in accordance with the hazard criteria of WHMIS 2015 and the SDS contains all of the information required by those regulations.
Japan MITI:	Not available
Australia:	Not available
Switzerland:	Not available
SECTION 16. OTHER INFO	RMATION
Sections Revised:	Section 15
<b>Revision Date:</b>	7/18/2018

The information and recommendations contained herein are, to the best of JAX INC's knowledge and belief, accurate and reliable as of the date issued. JAX INC makes no warranty or guarantee, expressed or implied, of their accuracy or reliability, and JAX INC shall not be liable for any loss or damage based upon the criteria supplied by the developers of these rating systems, together with JAX INC's interpretation of the available data.
