KEY AEROSOL SOLUTIONS FOR YOUR FOOD PROCESSING FACILITY

DRY-GLIDE

JAX108EU

For food-packaging areas where a non-stick surface is needed.

H1

- Reduces Friction
- Waterproofs Surface
- Eliminates Squeaks
- Smooths Movement

FG PENETRATING OIL

JAX109EU

Penetrating oil and spray-down oil that helps eliminate flash rust.

H1

- Loosens Corroded Parts
- Clean Penetrant
- Prevents Rust
- Long-Lasting

MAGNA-PLATE 78

JAX114EU

Protects chains, slides, conveyors, bearings, and other equipment.

H1

- Extends Component Life
- Excellent Filterability
- Corrosion Control
- Broad Temperature Use

T-OIL

JAX139EU

Machinery coat for use after power washing or as a light USP lubricant.

EH

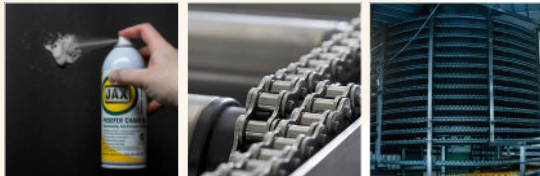

- Tamper-Proof Application
- Excellent Film Barrier
- Effective Release Agent
- Reduces Flash Rust

PROOFER CHAIN OIL

JAX147EU

Eliminates corrosion on high-humidity food-processing equipment.

H1

- Metal Wetting Film
- Non Drip Performance
- Effective Anti-Wear
- Enhanced Rust Inhibitors

HALO-GUARD FG-2

JAX213EU

For heavily loaded applications where a grease gun cannot access.

H1

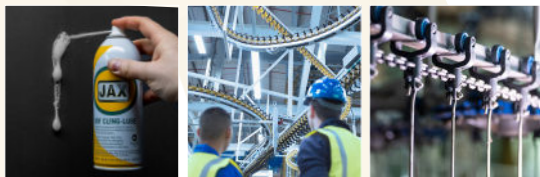

- Superior Water Resistance
- Excellent Compatibility
- Corrosion Control
- Antiwear and E.P.

BDF CLING-LUBE

JAX214EU

For use on overhead applications where dripping oil poses a risk.

H1

- Foaming Formula
- Excellent Cling
- Corrosion Control
- Antiwear and E.P.

FG MOLD RELEASE N-S

JAX233EU

Non-soy, BFT free formula for food contact release applications.

EH

- Effective Release Agent
- Prevents Surface Contact
- Non-GMO
- Wide Application Use
